Allison,

More food for thought in new comment boxes—and a tiny missed typo on p. 1. Thanks. We are converging on a draft both of our agencies can support.

Thanks Don. I accepted most of your edits and added a few additional comments/changes to address your comments. I left the "seed" items about potential future changes to CZARA in for now. I know this isn't an agreed upon decision between the agencies but its something my office would like to consider somehow....not sure if this is the right place to say anything or not but would like to leave it in for now until I have a chance to talk with Joelle.

And thanks for sharing the link to the NWEA site. I hadn't seen that yet.

Hi Don--

Modified our TPs and Q&A from the Hill briefings to address some of the questions the CSO group may ask. There are a few places (yellow highlight) that would be good for you to flesh out from EPA's perspective. After you review/revise, as needed, we can share with the larger groups (Joelle, Lynda, Steve, Jeff) in advance of our call next week.
